*Be it enacted by the General Assembly of the State of Colorado:*

**SECTION 1. Legislative declaration.** (1) The general assembly finds and declares that:

(a) Freedom of speech is a right that must not be infringed. In order to protect and reinforce this important right, the functioning of our democracy requires that Coloradans possess the ability to understand context, think critically about the information they are presented, and be free from indoctrination.

*Capital letters or bold & italic numbers indicate new material added to existing law; dashes through words or numbers indicate deletions from existing law and such material is not part of the act.*

(b) The growth of social media platforms and their integration into the media diet of Coloradans has created an opportunity for the rapid and widespread dissemination of misinformation; and

(c) While the increase of misinformation has created significant divisions in our society, Coloradans maintain more in common than not. Our ability to unite and collaborate toward successful solutions for the benefit of all Coloradans depends upon our ability to collectively identify and critically examine facts.

(2) Therefore, the general assembly declares that equipping the youth of Colorado with the critical thinking skills necessary to analyze the information, claims, and sources presented to them through media will empower them to make more informed decisions, serve to strengthen our democracy, and protect the health, safety, and welfare of our state.
